Blue Prism

DEV01

Blue Prism Developer

Exam Topic: Exam A

QUESTION: 1

Please refer to the exhibit.

A Developer is unable to make changes to the Elements in the Application Modeller. What are the TWO reasons for this? (Choose two.)

- A. Shared Application Model is locked for edits
- B. Run Mode of the Object is set to Exclusive
- C. Application Modeller is opened at process runtime
- D. Target application is not launched or attached
- E. User account does not have the permissions

Answer(s): A, C

Explanation:

The red banner at the top clearly states "Application Model belongs to Parent Object" and shows it is in read- only mode, which confirms the model is part of a shared object and is locked for editing.

When Application Modeller is accessed during process runtime, it opens in read-only mode to prevent changes during execution.

QUESTION: 2

Please refer to the exhibit.

The Developer is automating an SAP Windows-based application within a Citrix environment. There is an issue with a duplicate match found when identifying and highlighting the DocumentNo. field, due to the application window having two of the same labels and buttons.

The image shows two screenshots of SAP application windows. The top screenshot is titled 'Invoicing' and contains a checked checkbox 'Check Documents'. Below it are three rows of form fields: 'Document No.', 'Invoicing validation', and 'Manual OS in Invoic.'. Each row has a 'to' label and a corresponding field, with a yellow double-headed arrow button to the right. The bottom screenshot is titled 'Billing' and contains an unchecked checkbox 'Check Documents'. Below it are eight rows of form fields: 'Document No', 'Contract', 'No. of billing run', 'Billing Validation', 'Manual OS in Billing', 'Company Code', 'Division', and 'Meter reading unit'. Each row has a 'to' label and a corresponding field, with a yellow double-headed arrow button to the right.

Which Spy Mode should the Developer use to identify the correct field using Surface Automation?

- A. Win32
- B. Region
- C. Browser
- D. Application Navigator

Answer(s): B
